Subject: Re: Could someone send me the data table that is the attachment in the "Documnets file"

Karen, I am not sure who is asking for this. In my opinion, the results that we need to make sure we know specifically where they came from, are the ones that Dawn references in her tox opinion to recommend some action.

So...when I get a chance, I was going to ask Dawn to footnote her tox opinion (in her memo to me). Maybe I am missing something...if so, explain more.

The [Ex. 5 - Personal Privacy] well is on our list, but not high priority because nobody has been drinking it. We probably work this into the end of the sampling event.

Rich

I've been asked to add column(s) identifying where the same result came from (source) and the date for each. There are also a few corrections to the table regarding (J) v. non J values for the metals that were noted.

Thanks. If you can forward I'll get it updated this weekend.

Also did you ever get an agreement to sample the [Ex. 5 - Personal Privacy] well next to [Ex. 5 - Personal Privacy]? there is just a well and "Shed" no residence, but the well had a bunch of stuff in it and [Ex. 5 - Personal Privacy] response from [Ex. 5 - Personal Privacy] is the well is outside the area at their primary residence in Brooklyn, PA, but can't figure why they would have sampled outside the area of interest...just don't want to miss that well. Thanks!
